

Hey Parents!

This month your child is learning that

God makes good things!

He made their best friend, giant trees, and even little ladybugs! God made the whole world and everything in it.

**Two things to
help you continue
the learning
at home:**

1

Put this cling somewhere you can see it every day and learn the Bible verse together.

2

Ask your child these questions:

What are your favorite **things** that God made?

What is something **very big** that God made?
What is something **very small**?

Who do you love that God made?
